What is Diwali?

Deepavali, Diwali, and Deepawali are all names for the Indian Festival of Lights. Deepavali translates to "a row of lights" in Sanskrit, and this is the term most commonly used by South Indians to refer to the festival. North Indians, on the other hand, use a modified 'Diwali.' Although the legends associated with the festival vary by region in India. It is celebrated as a spiritual triumph of good over evil, light over darkness, and knowledge over ignorance.
